
Come costruire un tavolo: Preparazione e progettazione

Prendi carta, matita e un righello.

Fai uno sketch del tavolo che intendi costruire.

Non preoccuparti delle dimensioni precise in questa fase

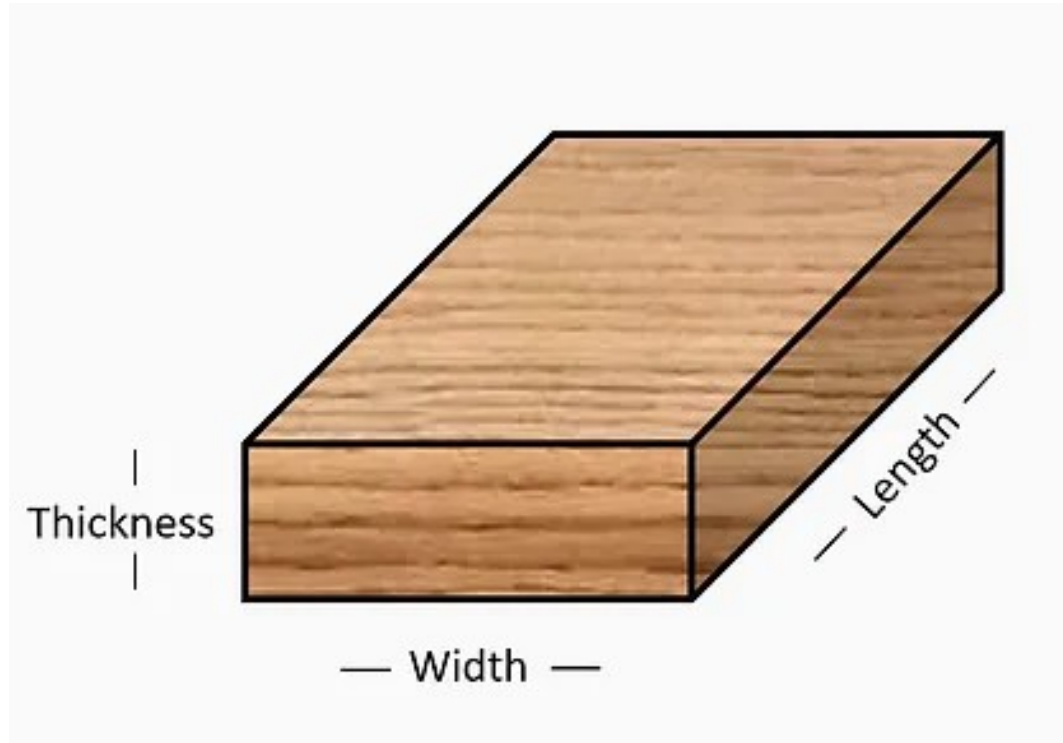

Considera il luogo in cui collocherai il tavolo

le dimensioni dovranno adattarsi allo spazio

Calcola la Quantità di Legno

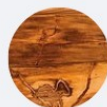

Aggiungi del materiale extra per eventuali errori

Scegli il legno che vuoi utilizzare

Inizia con un legno tenero come il pino o il pioppo. Se il tavolo sarà all'aperto, puoi usare legno trattato o
